Reports & Updates

Wind Design Presentation

- a. Reviewed some of the comments from the survey, most were positive.
- b. Good discussion of two possible tracks, Beginners and Experienced.
- c. Experienced will be what is being done now, while the Beginners will have not only the basics for the ASCE 7 but offer a 101 in roofing technology. Possibly a 101 on what the building code is and what the general criteria required for roofing materials, systems, and assemblies.
- d. Action Items:
 - i. On the signup, ask if the participant would like a copy of the slides to write notes (it is assumed this will be limited quantity).
 - ii. Create a work problem that would have them go through the actual calculations.
 - iii. Review flyer and add more description of what will be covered by each presentation.

*SPRI complies with antitrust laws and requires participants in its programs to comply with antitrust laws. Discussions which could affect competitive pricing decisions or other competitive factors are forbidden. There may be no discussions of pricing policies or future prices, production capacity, profit margins or other factors that may tend to influence prices. In discussing technical issues, care should be taken to avoid discussing potential or planned competitive activities. Members and participants should be familiar with the SPRI Antitrust Policy and act in conformity with it.

Adjournment

There being no further business, the meeting adjourned at 2:00 p.m. ET.

Submitted: Brian Chamberlain, Task Force Chair

These minutes have been reviewed by SPRI Legal Counsel.
